

Multiyear Training and Exercise Plan Workshop
Part I: Exercise Planning
December 5, 2017
10:30 A.M. -11:30 P.M.

Goal: Develop recommendations for training and training vendors that may fulfil contract deliverables and healthcare coalition medical surge needs, and which support disaster medical care delivery. As well as assist in the development of regional discussion-based and operations-based exercises.

Agenda

- Welcome / Introduction
- Where Do We Put Our Focus?
- Breakout Sessions: Discussion of Regional Exercises
- Multiyear Training Schedule for 2018-2022
- Training & Exercise Recommendations to REPC

Where Do We Put Our FOCUS

To the greatest extent possible, joint exercises will be conducted that will meet multiple federal/state funding requirements to minimize burden on exercise planners and participants and to leverage resources.

City of Dallas MCI Exercise	March 2018	Full Scale		5 hospitals	City of Dallas
TSA-E Coalition Surge Test	April 2018	Functional	3,4	Hospitals	NCTTRAC
Ambulance Strike Team Exercise	May 2018	Tabletop		EMTF	
HCID Tabletop Exercises		Tabletop	2		DSHS
FEMA Air Craft Regional Exercise	January 2018	Full Scale	2,4	All regional partners	FEMA
Regional Ebola Transfer Ambulance Team Drills	Quarterly (pending)	Drills	2		NCTTRAC
Redundant Communications	Monthly	Drills	2		NCTTRAC
WebEOC (game, drill)					
CMS Boot Camp		Tabletop			

GROUP ACTIVITY

Multiyear Training and Exercise Final Process

Results from Multiyear Training and Exercise Plan Workshop Part I: Identifying Training

The Training and Exercise Workgroup will be charged to:

- ✓ Make recommendations for training and training vendors that may fulfill contract deliverables and HCC healthcare delivery needs, and which support disaster medical care delivery
- Assist in the development of regional discussion and operations- based exercises
- ✓ Coordinate the completion of the yearly MYTEP
- Recommend training to close specific gaps and needs identified by HCC members
- Promote and support training for health care providers, laboratorians, non-clinical staff, and ancillary workforce in:
 - Clinical management (e.g., chemical, biological, radiological, nuclear and explosives [CBRNE] burn, trauma, and other recognized hazards) for all populations
 - Responder safety and health requirements
 - Management of patients in a resource-scarce environment, including the implementation of crisis standards of care
 - Ensure health care organization leadership is aware of and engaged in HCC activities
- Ensure HCC leadership receives NIMS training
- Promote NIMS implementation, including training and exercises, among HCC members to facilitate operational coordination with public safety and emergency management organizations during an emergency using an incident command system (ICS)
- Assist HCC members with incorporating NIMS components into their EOPs
- For those members not bound by NIMS implementation, the HCC should consider training on response planning techniques, organizational structure, and other incident management practices that will prepare members for their roles during a response including participation in AAR/ IP development
- Recommend strategies to manage patients in a resource-scarce environment, including the implementation of crisis standards of care
- Ensure health care organization leadership is aware of and engaged in HCC activities
