**EMERGENCY
 MANAGEMENT**
 SYMPOSIUM | 2018

The goal of our emergency management symposium is to provide an educational forum that will chance the collaboration of ideas and begin to identify solutions for the complex problems we face in mitigating, preparing, responding, and recovering from disasters.

Our special guest speaker is Dr. Kevin Menes, an emergency room physician who teaches Mass Casualty Preparedness. He was the attending physician in charge at The Sunrise Hospital on the night of the Las Vegas shooting.
