

From the Institute for Childhood Preparedness:

Protecting Children Series: First Course Now Available

Preventing Deaths From Hot Cars

As part of our protecting children series, we are pleased to provide you with this free course from our friends at Kids and Cars. Did you know that over 940 children have died in hot cars nationwide since 1990? This course has been developed to help provide child care professionals with information, resources, and actionable tips to prevent these heartbreaking tragedies.
